

Leading with Purpose, Power, and Passion: *Leadership Lessons from el Camino de Santiago*

Alice Wheaton speaks the language of inspiration and motivation! During this session she will illuminate nine Leadership Lessons that will help participants lead their team to peak performance with ease and fineness. After the session, audience members will be able to *inspire*, *communicate*, and *connect* to bring out the best in others.

Alice has learned, taught, and modeled successful practices to leaders who then inspire their team to achieve challenging goals. She understands the value of constant growth and stretching outside personal comfort zones. Her recent challenge was to complete the *el Camino de Santiago de Compostela* pilgrimage—a 900 kilometer trek across Spain (30 km a day for 25 days with a 30 pound backpack)! This ancient pilgrimage began over 1200 years ago to follow the path of St. James. Typically, modern day pilgrims follow this ancient path for four reasons: give thanks for a long awaited miracle, pay penance for a misdeed, to heighten spiritual awareness, or personal growth.

As fellow journeyers on the path of life—we will all relate to the wit and wisdom Alice shares from her exciting journey:

Leadership Lessons from the Camino:

- Courage is the Answer
- Practice Compassionate Listening
- Self-Trust Is the Secret to Success
- Hang in there—Finishing What You Start
- Question Your Perceptions
- Every Chain Contains a Weak Link
- The Cost of Doing—and of Not Doing
- Expect Miracles

I have never attended a workshop that I have learned so much that I could take home and use. Alice was incredible. I feel able to try many of the strategies that I have learned.
